Conversation: Coulterville-Greeley School

Good morning Joel,

Just wanted to let you know that Coulterville-Greeley School has been selected as a 2008 California Distinguished School. One of the key findings from the evaluation committee was our commitment to aerobics every morning and the PASS program woven throughout our daily school lives. We aren't able to do as much of the firstPASS curriculum as we would like, but two of the teachers who participated in your early trainings at C-G School still actively do many of the firstPASS activities they learned from your workshops with us. Thank you very much for sharing your philosophy and commitment to students' health and fitness with us.

Incidentally, I retired in January, after 39 years in education as a teacher and principal. I still keep in touch with everyone at C-G School, but I am really enjoying retirement. The school staff has asked me to represent them at the Distinguished School Recognition Celebration in Anaheim, so I am looking forward to it.

Hope everything is going well with you and the American Sports Institute, and progress towards developing your dream of the Arete School is on track.

Have a great day!!

Evan
